

Cleaner Air, Healthy Environment.

FT-APC-1

FOUR STAGE FILTRATION WITH IONISER

ADVANCED HEPA FILTER

3 SPEED CONTROL

REMOTE CONTROL

SMART AIR FLOW CONTROL SENSOR

REPLACE FILTER ALERT

Specifications

Voltage: AC 220-240V, 50Hz
 Power: 45W
 Recommended Coverage: Up to 30m²
 Product Size: 206X320X523mm
 CADR((BG): 170m³/h
 Negative Lon Density: 5 million pcs/cm³
 Nett Weight: 5.05KG

Advanced Three Stage Filtration Process

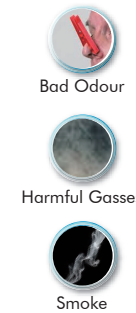

Pre Filter Remover

HEPA Filter Removes

Carbon Filter Removes

Ioniser

Sends out a stream of negative ions that attracts positive airborne dust and allergen particles in the air making them too heavy to remain airborne and therefore ineffective.

Function:

- Direct touch operation for FT-APC-1, special IMD touch panel for FT-APC-1
- Three filters: Pre-filter, High efficient HEPA and Activate Carbon. Pre-filter can intercept the hair, dander and other large particle pollution. High efficient HEPA can remove tiny inhalable particle pollution, including the PM2.5. Activate Carbon can filter different noxious gas and odor including formaldehyde.
- Odor sensor, LED indicator light can tell air quality.
- Light sensor: Under auto mode, when light dimmed, the machine turns into sleep mode automatically.
- Sleeping mode: Running in a very slow speed almost without noise.
- Negative ion.
- Three steps of speed would be high, low, silent.
- Auto mode: Air quality sensor monitor the air condition in real time. According to air quality, adjust the speed automatically for the energy efficiency and environmental protection.
- Timer function.
- Filter replacement indicator.
- Child lock.

Notice: Fanztec is committed to continuously improving its products, to ensure the highest quality and reliability standards to meet local regulations and market requirements. All features and specifications subject to change without prior notice. The colours may be different from the actual colours because the catalogue is printed matter.
